- The Pathway C form only allows you to choose one Ebacc subject. Although ALL qualifications are academically rigorous, this pathway leans more towards vocational qualifications.

# Process

- Although the school website shows a traditional option form, these will actually be filled in on-line using a site that is currently being set up with our school information. We will text all parents when this is ready, and show students in form time how to use it.
- We will use school data, plus information from form teachers and Head of Year to decide the most appropriate pathway for your child. However, this is only a recommendation and you are entitled to contact your child's form teacher to discuss a change of pathway.
